Cookie Policy

What is a cookie?

Cookies are small text files sent by us to your computer or mobile device. They are unique to your account or your browser. Session-based cookies last only while your browser is open and are automatically deleted when you close your browser. Persistent cookies last until you or your browser delete them or until they expire.

Cookies set by the website owner or service provider are called "first party cookies". Cookies set by parties other than the website owner are called "third party cookies". Third party cookies enable third party features or functionality to be provided on or through the website or service

you are using (such as advertising, interactive content and analytics). The third parties that set these third party cookies can recognise your computer both when it visits the website or service in question, and also when it visits certain other websites or services.

Other technologies, including data we store on your web browser or device, are used for similar purposes. In this policy, we refer to all of these technologies as “cookies”.

Does PiinPoint use cookies?

Yes. PiinPoint uses both session-based and persistent cookies. PiinPoint sets and accesses our own cookies on the domains operated by PiinPoint. Some cookies are required for technical reasons in order for our Websites and Services to operate, and we refer to these as “essential” cookies. Other cookies enable us and the third parties we work with to track and analyze the performance of our Websites and Services, and we refer to these as “performance” cookies.

Controlling how cookies are used

Your web browser may offer settings that allow you to choose whether cookies are set, and to delete them. For more information about these controls, visit your web browser’s help material. If you limit the ability of websites and applications to set cookies, you may lose the ability to access the services, since sign-on and security features may no longer function.

Sharing your personal information

Subject to any exceptions stated above in the collection of information section, should PiinPoint collect any of your personal information, we will follow these practices regarding the distribution of that information.

Your personal information is always protected

PiinPoint uses reasonable precautions to protect your personal information and store it securely. Access to your personal information is restricted to those personnel who need it, and PiinPoint takes reasonable steps to prevent the unauthorized use or disclosure of your personal information.

PiinPoint only uses and discloses your personal information if it helps us facilitate your needs, improve our products and services, meet legal and regulatory requirements, or — to the limited extent possible — manage our internal business operations. Additionally, if there are any disclosure or use restrictions in your consent to the collection of your personal information, PiinPoint will abide by those restrictions (subject to the consent exceptions listed below).

PiinPoint may combine your information with other information into an aggregate form, so your information no longer personally identifies you. We may then disclose the aggregate information to third parties, so they can obtain an overall picture of PiinPoint’s products, services, and/or usage patterns.

We only share your information with your consent

PiinPoint provides your information to third parties only for purposes to which you have consented, and we require such third parties to keep your information confidential.

In a few situations, PiinPoint may be required to disclose your information without your prior

consent. For example, PiinPoint may disclose your information if we are required to do so by law, or if we believe in good faith that such disclosure is necessary to:

- comply with law or legal process
- protect and defend our rights and property, or the rights and property of a third party
- protect against misuse or unauthorized use of any of PiinPoint's products, software, services, or other proprietary materials
- protect the personal safety of any person
- allow for a change of ownership of PiinPoint and associated transfer of all personal information to the new owner of PiinPoint – this does not affect the protection of your information under this Privacy Policy

PiinPoint will always try to provide you with prior notice of such disclosure; however, such notice may not always be possible or reasonable given the circumstances.

If this is what you wish, please contact our Privacy Officer, who will take care of removing your personal information from all of PiinPoint's records. However, there may be situations where we are obligated to retain one archival copy of your information to allow us to comply with laws or respond to legal processes. We will inform you of all such situations, and will only use your retained personal information to the limited extent necessary to comply with such laws or respond to legal processes.
